Awake (ăwē·k), *v.* Pa. t. **awoke** (ăwō·k), formerly also **awaked.** Pa. pple. **awoke** and **awaked.** Forms: α. (1 **awæcn-an,** see below and cf. Awaken). *Pa. t.* 1–3 **awóc,** 3–4 **awok,** 4 **awook,** (6 *Sc.* **awoik**), 3– **awoke.** *Pa. pple.* 1 **awacen,** 3 **awake,** 7 **awaken,** (*poet.*) **awoken,** 8– **awoke.** β. 1 **awaci-an,** 3 **awaki-en, awakie,** 4 **awaki, -ye,** 4– **awake,** (5 *Sc.* **awalk**). *Pa. t.* 1 **awacode,** 3–9 **awaked.** *Pa. pple.* 1 **awacod,** 4– **awaked.** [In this, as in the simple Wake, q.v., two early verbs are mixed up; the form-history being complicated with that of Awaken, as the sense-history is with that of Awecche. 1. For the intransitive vb., OE. has *awæcnan, awóc, awacen,* compound of *wæcnan, wóc, wacen,* the present stem having a formative *-n-, wak-n-.* (Cf. Goth. *fraihn-an, frah, fraihans.*) This present began already in OE. to be treated as a weak vb., with pa. t. *awæcnede*; whence mod.E. *awaken, awakened.* As the earliest texts have *onwæcnan,* the *a-* in later OE. was probably = *on-*, not A- *pref.* 1. 2. Late OE. had also a weak vb. *awacian, awacode,* in form a compound of *wacian, wacode,* to watch, keep awake, but in sense identical with *awæcnan,* and perhaps originating in a confusion of the two. This gave M. and mod.E. *awake, awaked.* 3. After the weak *awakened* came into common use, as pa. t. of Awaken, the original relation of *awoke* and its pa. pple. to that vb. became obscured; and later instinct, in accordance with the general analogies of the language, has referred them to Awake, treating them as strong equivalents of *awaked.* They are so included here. 4. Of all these forms the sense was in OE. only intrans. 'to arise or come out of sleep,' the transitive (causal) sense of 'rouse from sleep' being expressed by the derivative *awæc(e)an,* ME. Awecche, Goth. *uswakjan,* mod.G. *erwecken*; but soon after 1100 *awake* began to be used in this sense also, and at length superseded *awecche,* which is not found after 1300. There has been some tendency, especially in later times, to restrict the strong pa. t. and pa. pple. to the orig. intrans. sense, and the weak inflexion to the trans. sense, but this has never been fully carried out. 5. The str. pa. pple. *awaken* was already in 13th c. reduced to *awake,* and at length became merely an adjective (mostly predicative), after which a new form from the pa. tense, *awoken,* later *awoke* was substituted; but the weak *awaked* is also in common use. (Shakspere used only the weak inflexions.)] **I.** *intr.*

(Both f. *ag-an* to fear.) The ME. *eye*, (*aye*,) and *awe*, were thus in origin and derivation distinct though cognate words, but were practically treated as dialectal variants of the same word, of which *aye* was still used in s. w. *c* 1400, while *awe* was in the n. e. *c* 1250. Ay- was formerly used indifferently with *ai-* in many words: e.g. *aydle*, *aykle*, *ayle*, *ayme*, *ayre*, *ayre*, *ayte*, *aythar*, *ayver*. For such, see Ai-. It also interchanged frequently with Ei-, Ey-; and sometimes with A-, Ea-, E-.

Preceded in Eng. by the native *á*, *ó*, which also continued for several centuries as the southern form: the two were combined in the phrase 'for ay and oo.' Except in poetry, *ay* is still northern. The spelling fluctuates between *ay* and *aye*: the former is preferable on grounds of etymology, phonology, and analogy. The word rimes, in the literary speech, and in all the dialects, with the group *bay*, *day*, *gay*, *hay*, *may*, *way*. On the other hand, *aye* 'yes' does not rime with these, and should not be written *ay*. See Aye.]

The suggestion that it is the same as Ay *adv.* 'ever, always,' seems set aside by the fact that it was at first always written *I*, a spelling never found with Ay. But it may have been a dialect form of that word, from some dialect in which it had passed through the senses of *always, in all cases*, to *by all means, certainly, yes* (cf. *aye but*, in sense 2 b; and the history of Algate), and so have been taken in literary English for a different word. It is less easy to see in it a phonetic variant or dialect form of *ya* 'yea, yes.' Spelt both *aye* and *ay*: the former is in accordance with parliamentary usage, and better on every ground. *Aye* and *eye* (which many identify in pronunciation, and which differ at most only in the 'broader' or more back sound of *aye*, are analogous diphthongal words usefully distinguished by their final *e* from the regular pronunciation of *-ay*, *-ey*, in *bay*, *day*, *gay*, *hay*, etc., and *bey*, *dey*, *grey*, *they*, *convey*, etc.: see Ay.]

Lit.* xvi. 39), in 13th c., med.L. *babuinare* meant 'to paint marginal figures in MSS.,' and F. *babouin* was equivalent to *homuncio*; in the earliest known F. quotation in *Le Dit des* XXIII *manières de vilains* (13th c.), *li vilains babuins* is a simpleton or ninny, who gapes at the statues in front of Notre Dame while his purse is cut from behind. OF. *bacheler* = Pr. *bacalar*, It. *baccalare*:—L. type **baccalāris*, of doubtful origin. The later F. *bachelier* is corrupted in the termination, as is the 16th c. Eng. *bachelour, bachelor*: cf. Ancestor, and see -or. The original meaning being uncertain, the sense-development is also doubtful.

Of med.L. *baccalāris* only a few late instances occur (in sense 2), which might be from the mod. langs. (see Du Cange, *Bacularis*). It was, however, prob. connected with *baccalāria*, a division of land, of which the size and nature varied at different times, and with the adjectives *baccalarius, -aria*, applied in 8th c. to rustics male and female who worked for the *colonus* or tenant of a *mansus*. (See Delocbe, *Cartulaire de Beaulieu* Introd. éclairc. xxii.) But the precise relation of **baccalāris* to these words, and its subsequent history are still uncertain. Still more doubtful is its derivation: *baccalaria* is with some probability referred to *bacca*, late L. and Romanic for *wacca* cow, through **baccalis* (cf. *ovilis* from *ovis* sheep), in which case it might be 'grazing farm,' and *baccalarius* one employed on it, the assistant of a *colonus* who had not a *mansus* of his own; Littré (without accounting for the sense) suggests Celtic *bachall* stick (a. L. *baculus*); the Welsh *bach* 'little' must be definitely discarded, its old Celtic form being *bicc-* or *becc-*, Irish *becc.* (Thurneysen.)]

†2. A junior or inferior member, or 'yeoman,' of a trade guild, or City Company. *Obs.*

Back- *in comb.* is used in many relations, substantive, adjective, and adverbial (rarely verbal), often difficult to separate, and in various senses. In some of these the combination is very loose, the use of the hyphen being almost optional.

This is especially the case, when *back* is capable of being viewed as an adj., in which aspect the hyphen would not be used, e. g. *back-yard* or *back yard, back-stroke* or *back stroke*. As a rule, the use of the hyphen implies that the combination (in the case in point) has not the general and purely descriptive value of the two words, but is in some respect specialized or appropriated as a specific name.

Bad (bæd), *a.* (and *sb.*) Also 4–6 **badd**(e. [ME. *badde* appears in end of 13th c., rare till end of 14th: see below. Regularly compared *badder, baddest*, from 14th to 18th c. (in De Foe 1721), though Shakspere has only the modern substitutes *worse, worst*, taken over from *evil, ill*, after *bad* came to be = *evil.*

Prof. Zupitza, with great probability, sees in *badde* (a syll.) the ME. repr. of OE. *bæddel* 'homo utriusque generis, hermaphrodita,' doubtless like Gr. *ἀνδρόγυνος*, and the derivative *bædling* 'effeminate fellow, womanish man, *μαλακός*,' applied contemptuously; assuming a later adjectival use, as in *yrming, wrecca*, and loss of final *l* as in *mycel, mucle, lytel, lyte, wencel, wrenc e.* This perfectly suits the ME. form and sense, and accounts satisfactorily for the want of early written examples. And it is free from the many historical and phonetic difficulties of the derivation proposed by Sarrazin (*Engl. Studien* VI. 91, VIII. 66), who, comparing the etymology of *madde, mad*, earlier *amad de* = OE. *gemǽded* (see AMAD, would refer *badde* to OE. *gebǽded, gebædd*, 'forced, oppressed,' with a sense-development parallel to that of L. *captivus*, 'taken by force, enslaved, captive,' It. *cattivo*, F. *chetif*, 'miserable, wretched, despicable, worthless.' No other suggestion yet offered is of any importance; the Celtic words sometimes compared are out of the question.]

Badger (bæ·dʒəɹ), *sb.*¹ Forms: 5 **bager,** 7 (?) **bodger, budger,** 5– **badger.** [See Badge *v.*², and note below.]

One who buys corn and other commodities and carries them elsewhere to sell; an itinerant dealer who acts as a middleman between producer (farmer, fisherman, etc.) and consumer; a cadger, hawker, or huckster. Still common in the dialects.

By Act 5 and 6 Edw. VI. c. 14 § 7 Badgers were required to be licensed by the Justices (the origin of the hawker's licence). Among the commodities in which they are said to have dealt are named corn (especially), fish, butter, and cheese. They were obnoxious to the charge of *regrating*, and hence the word is in some 17th c. vocabularies, e.g. Robertson's *Phraseol. Gen.* (1961), explained as 'an ingrosser, a forebuyer, or forestaller of the market, one that buyeth corn and other provisions beforehand.'

[Also in the following Glossaries of E.D.S.: *Swaledale* (Meal-seller), *Huddersf., Mid Yorksh., Cumbrld.* (Flour or corn-dealer; also pedlar, huckster), *Worcester, N. [*Note.* Conjectures as to the derivation, and possible connexion with next word, depend greatly upon the original meaning. On the assumption that this was 'corn-merchant,' *bager, badger*, has been identified with obs. F. *bladier*, 'a Marchant or Ingrosser of corne,' Cotgr. (properly Provençal = OF. *blaier, blayer*); but this is phonetically inadmissible. If, however, we assume *bagere* to represent a ME. **blager*, with *l* unaccountably lost, this might represent an OF. **blaagier*, f. *blaage* (*bleage, bladage*) harvest, corn-supply, feudal due paid in corn, f. *ble, blee* in med. L. *bladum* corn, wheat. (See H. Nicol *Proc. Philol. Soc.* 19 Dec. 1879.) But no such links between F. *blaage* and Eng. *bager* are found either in F. or Eng.; so that there is positively no evidence connecting *badger* with any deriv. of F. *blé*. And indeed a consideration of the whole (46) quotations which we have for the word leads to the conviction that the *bager, badger*, had no essential connexion with corn, any more than the *lader, hidder*, or *carrier*, named along with him in the statutes, proclamations and law-books. At

present it is most in accordance with the facts to take *badger* as the agent-noun from BADGE *v.*].

Badger (bæ·dʒəɹ), *sb.*[2] Also 6 **bageard**, 6–7 **badgerd**. [Only mod. Eng.: of doubtful origin. Prob. (as E. Müller suggests) from BADGE *sb.* + -ARD, in reference to the white mark borne like a badge on its forehead: cf. for the sense BAUSON and BALL *sb.*[3], for the formation BALLARD.

Most etymologists have assumed the identity of this with the prec. word, citing the presumed analogy of the mod. F. name of the quadruped, *blaireau*, in 13th c. *blereau*, taken as a dim. of *blaier*, meaning 'little corn-merchant *or* corn-hoarder,' an appellation arising out of popular notions of the habits of the animal, 'which, it is said, makes away with much buck-wheat' (Littré). But this derivation seems to be erroneous. No OF. **blærel*, representing a L. **blădărellus*, from *blădărius*, is found. And it seems certain that OF. *blarian* (12–13th c.), later *blereau*, *blaireau*, in Flanders *blairiau*, *blariau*, in Normandy *blierel*, *blirel*, compared with OF. *blarie*, *blaire* 'the bald-coot,' mod. F. dial. (Flanders, Picardy) *blarie*, *blairie*, (Normandy) *blérie*, must be referred to MDu. and Flem. *blaer* 'bald,' MDu. *blare*, Flem. *blaere*, Du. *blaar* 'a white spot on the forehead of an animal.' *Blaireau* thus corresponds exactly to *bauson*, and its analogy strongly favours the derivation of *badge-ard* from *badge*.]

Bail (bēl), *sb.*[1] Also 5 bayll, baill, 5–7 bayle, 6 7 bayl, bale, baile. [In senses 1 and 2, a. OF. *bail* 'power, custody, jurisdiction,' and 'delivery,' n. of action f. *baillier*, in its senses of 'take charge of, guard, control,' and 'hand over, deliver' (see Bail *v.*[1]). The remaining senses are peculiarly English, and their development not quite certain. But from the Latin phrase *tradere in ballium alicui*, found 1259, and the AF. *lesser en bail* (1331), it seems that *bail* was originally related to sense 1, and meant the 'custody or charge' (i.e. of the surety); cf. also the equivalent *mainprise*, *manucaptio*. But it must soon have been associated in meaning with sense 2, and the AF. *bailler* to deliver (chattels), since already in 16th c. it was explained as 'the *delivery* or handing over of the accused to his surety,' whence transferred to the *security* in consideration of which he was so delivered, and finally to the *surety* himself who became or gave security for his reappearance in court when called for judgment. There is nothing approaching these senses in Fr., while, on the other hand, the Fr. sense 'lease' is not in English.

Fr. *bail*, the n. of action, must be carefully distinguished from *bail* 'governor, ruler, tutor, guardian' (= Pr. *baile*, Sp. *bayle*, Pg. *bailio*, It. *bailo*, *balio*:—L. *bājulus*), never adopted in English (though sometimes erroneously stated to be the direct source of sense 6). *Bail* = *bājulus* was the primary word; thence the vb. *bailler* = *bājulāre*; thence again the n. of action *bail* formed in French, and adopted in English. (The word is discussed by Coke *4th Inst.* 178.)]

6. The person or persons who procure the release of a prisoner from the custody of the officer arresting him, or from prison, by becoming surety for his appearance in court for trial.

The bail now becomes answerable with his money, but formerly he might have to give his own person as security, whence the phrase *to be* or *become bail*, i.e. security, as opposed *to give* or *put in bail* of sense 3.

¶ In consequence of the transition of meaning in senses 3, 6, many phrases are current which are not easily analysed. 'To say that the magistrate *bails* the prisoner see Bail *v.*[1] 2) is now somewhat old-fashioned. Generally, the magistrate *accepts bail*, *admits to bail*, *allows bail*, or (occasionally) *holds to bail*, or *takes bail*. I have also seen *grants bail*. The regular phrase of the Statute-book is, I think, "the magistrate may *admit him to bail*." In 45 Geo. III, c. 92, the magistrate also *takes bail*, the prisoner *gives bail*. *Bail* is also *offered* by the prisoner, and may be *refused* by the magistrate; on the day appointed his bail *surrender*, *render*, *bring in*, or *produce him* in court, or the accused *surrenders to his bail*. In the latter phrase, there is a notion of his delivering himself up in discharge of the recognizances into which he himself, as well as his sureties, has entered, for his appearance. This idea also colours the later use of *hold to bail*, *admit to bail*.' (F. W. Maitland.)

7. *Comb.* Bail-bond, the bond or security entered into by a bail; bail-piece: (see quot.).

OF. *baillier*, *bailier*, *bailler* (= Pr. *bailar*):—L. *bājulāre* 'to bear a burden, to carry,' afterwards 'to carry on, manage, rule,' and 'to be guardian or tutor,' whence *baillier* ranged in OF. from 'bear, carry, handle, treat, manage, conduct, govern, control, rule, take charge of, guard,' to 'take hold of, receive, take, take away,' and 'hand over, deliver, give.' From the last of these arose the Anglo-French legal sense of 'deliver,' narrowed down in use to 'deliver on trust on certain conditions.' Sense 2 is probably immediately from Bail *sb.*[1] 3, 4, as if short for 'let to bail, admit to bail,' but clearly influenced by AF. *bailler* in sense 1, so as to make 'deliver' or 'liberate' at length the leading idea. Hence extended from the act of the magistrate to that of the surety, and used in various transferred senses.]

Lost in G. and Du.; also in southern Eng., where the modern repr. of OE. *bearn* would have been *bern* (cf. *fern*) or *barn* (cf. *arm*, *warn*). In fact, *berne* survived in the south to 1300, *barn* still survives in northern English, and was used by Shakspere; *bairn* is the Scotch form (cf. *fairn*, *airm*, *wairn*), occasionally used in literary English since 1700. It is doubtful whether the *berne*, *bearn* of some 17th c. Eng. writers was a survival of the early southern form, or a variant spelling of *bairn*. The pl. *bærn* in Ormin is the ON. *börn*, hence it is probable that the northern singular *barn* is as much of ON. as of OE. origin.]

Bald (bɔ̄ld), *a.* Forms: 3-5 ballede, 4-5 balled, -yd, -id, -it, 5 belde, bellyde, 5-7 balde, 6 baulde, 7 bal'd, ball'd, 8-9 *Sc.* beld, 6- bald. [ME. *balled*, of uncertain origin; in sense 1, apparently a ppl. form from Ball *v.* or *sb.*, with the sense of 'protuberant or rounded like a ball,' whence possibly 'smooth,' and, as applied to the head, 'hairless.' But the analogy of many words for 'bald' in various langs., in which the sense arises out of that of 'shining, white,' or esp. that of 'having a white patch on the forehead,' as in 'bald-faced stag,' 'bald-coot,' with the actual appearance of this sense in Ball *sb.*², strongly favours the idea that ME. *ball-ed* was a derivative of the latter (cf. also Ballard), which is with evident propriety referred to Welsh *bàl*, as explained under sense 5. The chief difficulty is the rarity of the simple *ball*, and lack of early instances to prove its Eng. use before the appearance of *ball-ed*. For the termination, Sievers compares OE. *-ede* (OS. *-edi*) used esp. of bodily defects, as in *heal-ede* ruptured, *hæfer-ede* hunch-backed, etc.

Cf. the analogy of MDu. *blaer* 'bald' and *blare*, Du. *blaar* 'white patch on the forehead' of a horse, etc.; also of MHG. *blas* 'bald,' earlier 'shining,' and *blasse* 'white patch on the forehead'; also of Du. *blos* 'bald' and *blosse*; and see *blas* in Grimm; also Wedgwood and Skeat. Cf. also Gr. φαλακρός 'bald,' lit. 'white- or shining-pated.' There seems little ground for the suggestion of Kluge that *balled* represents a lost OE. "*bælled* = *barrad*, Goth. "*baslops*, from OTeut. *bas-os* Bare.]

[Cf. 1849 and 1854 in 3.]

[From the evidence at present, the inference is that the current sense was transferred from 1 or 2, either with the notion of 'frothy talk,' or of 'a senseless farrago' or 'jumble of words.' Most etymologists have however assumed 3 to be the original sense, and sought its explanation in the

obvious similarity of *balder* to dial. *bolder* 'to use coarse language,' Du. *balderen* 'to roar, thunder,' Norwegian *baldra*, Icel. *baldrast*, *baldrast* 'to make a clatter,' and of *dash* to the vb. *dash* in various senses. The Welsh *baldordduz* adj., f. *baldordd* 'idle noisy talk, chatter,' has also been adduced. Malone conjectured a reference to 'the froth and foam made by barbers in *dashing* their *balls* backward and forward in hot water.' Other conjectures may be found in Wedgwood, Skeat, and E. Müller. [Now found in most of the European langs.; Sw. Da., Fris., Du., LG. (whence Ger., Russ., Fr.) *ballast*. Origin doubtful: the oldest form is possibly OSw. and ODa. *barlast* (before 1400, and regularly in 15th c.), f. *bar* bare + *last* load, with the sense of 'bare, naked, or mere *load* or weight,' i e. lading which is mere load, lading for the sake of weight merely.' Thence *ballast*, with *ll* for *rl* by assimilation, already in 15th c. Sw. and Da., whence in Eng. soon after 1500. The later Da. *bag-last* 'back-load,' Du. (17th c.) *balg-last* 'belly-load,' were corrupted by 'popular etymology.' The final *t* was lost in Flem. *ballus*, and the 16–17th c. Eng. *ballace*, *-as* (first in the vb, where *ballast* was plausibly analysed as *ballass-ed*.) Contact of sense further often confused *ballace* and BALLANCE.

(The form *ballast* also occurs before 1400 in LG., and is taken as the original by Schiller and Lübben, who explain it from *bal* bad (= BALE *a.*) as *bad lading* 'schlechte Schiffsfracht, die man nur ladet um dem Schiffe den nöthigen Tiefgang zu geben.' If this is well founded, *barlast* would rank with *bag-*, *balg-last*, as a popular perversion.)

Band (bænd), *sb.*[3]; also 5 6 **bande.** [Late 15th c. *bande*, a. F. *bande* = Pr., Sp., It. *banda*, app. adopted from Teutonic (cf OHG. *bant*, OS., ON. *band*: see BAND *sb.*[1]; also Goth. *bandi*: see BEND *sb.*[1]). The word received in Romanic a new development of sense, not found in Teutonic, with which it has since been taken back, not only into Eng., but also into Ger. (*bande*) and Du. (*bende*, formerly *bande*); the adoption being facilitated by its obvious connexion with the native words. In Eng., where the pre-existing BAND *sb.*[1], was synonymous with *bend*, the present word was, by confusion with these, also often written *bend*. So also in mod.Du. *bende* for *bande*, by assoc. with a native *bende*: see BEND *sb.*[1]

The actual history of *banda* in this sense, and its relation to the Teutonic forms, are not without uncertainty, owing to our ignorance at present of its age, and to the fact that It., Sp., Pg. *banda*, F. *bande*, are found also as synonyms of *benda, bende* 'fascia' (which, except in It., they have now indeed superseded), while conversely Littré's earliest example of *bande* 'troop' is spelt *bende*, thus showing at least form-association between the two words. And some actually identify them: Du Cange says that the company of soldiers formed by Alfonso of Castille was called a *banda*, from the red *banda* or ribbon worn by them as a sash; and the new ed. of the *Vocab. della Crusca* explains *banda* as 'Company of soldiers, because originally distinguished by a *banda* or band of cloth of a certain colour.' But Littré refers *banda, bande* 'troop' to late L. *bandum* BANNER; and Du Cange shows med. L. *bandus* in sense both of 'fascia,' and of 'company of men collected under a certain leader or *banner*,' thus associating all three notions. Whatever the original source, it is evident that the popular feeling associated *banda, bande*, 'fascia, stripe, sash, scarf, ribbon,' *banda*, 'company, troop,' and *bandum* 'banner.']

Bank (bæŋk), *sb.*[3] Forms: 5–7 banke, 6 bancke, 7 banque, banck, 7– bank. [Early mod. E. *banke*, a. F. *banque*, ad. It. *banca* fem., used side by side, and in same sense, with *banco* masc.; ad. Teut. *bank*, *banc*, bench: see prec. word. The double form and gender in Romanic, cf. It., Sp., Pg. *banco*, *banca*, Pr. *banc*, *banca*, F. *banc*, *banche*, are apparently original (see med.L. *bancus*, *banca*, in Du Cange), and due to the double gender of the German: OHG. *der*, *diu banch*, MHG. *der*, *die banc*, early mod. and dial. G. *der*, *die bank*. The original meaning 'shelf, bench' (see Bank[1] and [2], and Bench) was extended in It. to that of 'tradesman's stall, counter, money-changer's table, *mensa argentaria*, τράπεζα,' whence 'money-shop, bank,' a use of the word which passed, with the trade of banking, from Italy into other countries. In this sense, It. uses both *banco* and *banca*, Sp. and Pg. the masc. *banco*; but in F. the It. fem. *banca* was adapted as *banque*, whence Eng. *banke*, *bank*. The word is thus ultimately identical with Bench and Bank[2], and cognate with Bank[1].

(Although, in It., *monte* 'mount, heap, amount, stock,' was used in some of the senses of 'bank,' the notion that the name *banco*, *banca*, originated in a German rendering of *monte* is erroneous: G. *bank* had no such sense as 'mount, heap,' only that of 'bench, shelf.' Rather is it the fact, that in the development of banking, the *banco* of the money-changer, and the *monte* or 'joint-stock capital' were at length combined, and *bank* applied in Eng. to both.)]

It. *banca rotta* (Florio), and its F. adaptation *banqueroute* (in Cotgr. *banqueroutte*), with the second part subsequently assimilated to the equivalent L. *ruptus*, as in *abrupt*, etc. The It. *banca rotta* is literally 'bank broken,' or 'bench broken.' The transference of sense from the fact to the agent (in sense 2) is peculiar to Eng.: cf. BANKRUPT *a.* and med.L. *ruptus*.

According to Johnson 'it is said' that when an Italian money-changer became insolvent 'his bench was broke.' But *rotto, rotta* is also 'wrecked' (used of a ship); and fig. 'discomfited, defeated, interrupted, stopped.' Cf. the familiar use of *break* = become insolvent, *broken* insolvent; also med.L. *ruptura* failure, *ruptus* broken man, bankrupt, 'creditorum fraudator, aut decoctor, qui dissolvit argentariam et foro cedit' in Du Cange, who has an example dated 1334.]

2. A merchant, trader, or other person, whose property and effects, on his becoming insolvent, are administered and distributed for the benefit of all his creditors, under that system of statutory regulations called the Bankrupt or Bankruptcy Laws. As these laws (which began in England with Acts 34 and 35 Henry VIII, c. 4) were originally directed against fraudulent traders, who absconded with the property of their creditors, or eluded the attempts of creditors to get at them, the earlier senses were:

†**a.** in *Law*. 'A trader who secretes himself, or does certain other acts tending to defraud his creditors.' Blackstone.

†**b.** *popularly*. One who has brought himself into debt by reckless expenditure or riotous living; a fugitive from his creditors, a broken man in sanctuary or outlawry. (In these senses the bankrupt was a *criminal*.)

1. *prop.* A piece of stout taffeta, or other cloth, attached by one side to the upper part of a long pole or staff, and used as the standard of an emperor, king, lord, or knight, under (or after) which he and his men marched to war, and which served as their

rallying-point in battle; *hence*, that of a country, nation, army, or company. Phrases: *To join the banner of, follow the banner of.* In the literal sense, now chiefly historical; in poetry and elevated prose, applied to the *standard* or *flag* of a country; common in figurative expressions.

Heraldically, a *banner* means a square or quadrangular flag, displaying the arms of the person in whose honour it is borne, and varying in size from that of an emperor, six feet square, to that of a knight banneret, three feet square. In this sense we still commonly speak of the banners of the Knights of the Garter, in St. George's Chapel, Windsor.

(Sometimes specifically restricted to an ensign other than an ordinary flag, *e.g.* one extended in a frame, one attached by its upper edge or supported by two staves, so as to remain open.)

Of these the earliest were the religious banners, usually those of patron saints, which were often carried to battle, and there served as banners in sense 1. The banners of guilds and city companies, also partook of both characters.

1. a. Originally, a knight able and entitled to bring a company of vassals into the field under his own banner, and who ranked next to a baron and above other knights: in this sense commonly used substantively, as a title of rank or dignity, and contrasted with *knight*, though sometimes with *bachelor*. b. Subsequently, the title and rank were conferred for valiant deeds done in the king's presence on the field of battle (perhaps, also, on other occasions or for other grounds), and, with the decay of the feudal system, came to constitute merely a rank or order of knighthood: in this use occur both *banneret* and *knight-banneret*, the latter opposed to *knight-bachelor*. On the institution of the order of baronets in 1611, precedence was given to these over all bannerets 'except such as were made in the field, under the banner, the king being present,' and after this the order of knights-bannerets was allowed to die out.

Note. The original sense was mainly French; 'in England there were few tenants bringing any considerable number of men who were not of the rank of the barons' (*Penny Cycl.*); the first recorded instance of use b. is in the 15th year of Edward III, when John de Copeland was made a banneret for his capture of King David Bruce at Neville's Cross. In the claim of Baronets to precedency (in 1612) it is said 'there are not *Bannerets* now in being and peradventure never shall be'; and although the title has been claimed for certain persons knighted since that day, heraldic authorities do not admit the validity of the claim. See the matter discussed in Nicolas' *Hist. Knighthood* (1842) I. pp. xxxii–xliii. In later times an explanation of the name was sought either in its being conferred on the field 'under the banner,' or in the alleged fact that at its bestowal the knight's pennon was symbolically cut square to banner shape.

1. The name, in Scotland and north of England, of a form in which home-made bread is made; usually unleavened, of large size, round or oval form, and flattish, without being as thin as 'scon' or oat-cake. In Scotland, bannocks are usually of barley- or pease-meal, but may be of wheaten flour; in some parts a large fruit cake or bun of the same shape is called a *currant-bannock*. In north of England the name is sometimes given to oat- or haver-bread, when made thicker and softer than an oat-cake; but local usage varies. (Cf. the dialect glossaries).

Bargander, obs. form of Bergander.

Bargaret, variant of Bargeret.

Barge (bāɹdʒ), *sb.* Forms: 4- **barge,** 4-7 **berge,** (7 **barg**). [a. OF. *barge* (= Pr. *barga, c* 1180, med.L. *barga*), of which the L. type might be either *barga* or **bārica*. Diez favours the latter, taking it as a possible derivative of L. *bāris*, Gr. *βᾶρις*, a kind of boat used on the Nile, an Egyptian word (Coptic *bari* a little pleasure-boat); but there is no evidence that this word was ever used in the West. As to *barga* see Bark *sb.*[2]

If *barge* was, as seems certain, the same as *barca*, Bark *sb.*[2], it was originally a ship's boat, used as a lighter, etc.; in OF., 13th c., we still find 'la barge de la nef' (Littré): cf. senses 2-4. But, as with *barca*, the name was extended to a boat or small ship with sails; and this was the first use in English: see sense 1. After the introduction (by Caxton) of *barque, barke* from 15th c. Fr., that word took the place of *barge*, which, after 1600, is found in the sense of 'ship' only in translators or historians. The modern senses revert more nearly to that of the original *barca*.]

Bark, barque (bāk), *sb.*² Forms: 5–7 **barke**, 5– **barque**, 6– **bark**. [a. F. *barque*, 15th c. ad. Pr., Sp., or It. *barca*: —L. *barca* (in Paulinus Nolanus *c* 400). Not in OFr., where the word used was *barge*.

Barge and *bark* are probably identical in origin, and possibly from Celtic; Thurneysen shows that OIr. *barc* (a fem. *a*-stem) may, if native, represent an original **barga*, with dialectal by-form **barca*, which would satisfactorily account at once for OF. *barge*, and the common Romanic *barca*. Diez takes *barca* as an early syncopated variant of the conjectural **barica*, mentioned under BARGE, but as *barca* occurs *c* 400 and **barica* not at all, this is improbable.

As to the original meaning, Isidore, *c* 620, says 'Barca est, quæ canctis navis commanda ad litus portat.' Hanc navis in palago propter nimias undas sine suscipit gremio.' So Florio (1598) explains It. *barca* as 'a barke, boate, wherrie, or lighter'; ed. 1611 has 'any kinde of Barke, Barge, or Boate'; Minsheu (1623) explains Sp. *barca* as 'a great boat, a barke, a skiffe, a hoarse boat'; and Cotgr. (1677) has Fr. *barque* 'a barque, little ship, great boat.' Cf. BARGE *sb.* 2–4. The *barca* was thus apparently, originally, a large ship's boat, used as a lighter; on the Mediterranean, the name continued to be applied to an open boat, even while extended to a small vessel with sails; the latter was the sense with which the word was taken from French into English, and which it still retains both in general and specific use; but in the end of 16th c., the more primitive sense of 'large rowing boat, barge,' was reintroduced from the languages of the Mediterranean.]

Barnaby (bā·ɹnăbi). [a. F. *Barnabé*, ad. L. *Barnabas*.] By-form of the name Barnabas; whence **Barnaby-day, Barnaby bright,** or **long Barnaby,** St. Barnabas' Day, the 11th of June, in Old Style reckoned the 'longest day'; **Barnaby-thistle,** the *Centaurea solstitialis*, so named from its flowering about the 11th of June.

Barnacle (bā·ɹnăk'l), *sb.*1 Forms: α. 2 bernac, 5 bernak(e, bernag. β. 4–6 bernacle, 5 barnakylle, -alle, byrnacle, (6 barneckle, burnacle). 7–8 barnicle, 9 bernicle, 4– barnacle. [ME. *bernak*, a. OF. *bernac* 'camus'; of which *bernacle* seems to be a dim. form: cf. OF. *bernicles* in Joinville *c* 1275, in sense of the instrument of torture (sense 2) as used by the Saracens, for which Marsh has suggested an oriental origin, comparing Pers. *baran-dan* to compress, squeeze, *baranjak bar-dan* to inflict torture. But, so far as evidence goes, I was the earliest sense, and of western origin. The sense of 'spectacles' seems to arise naturally enough from the others, but has been treated by some as distinct, and referred to OF. *béricle* (since 15th c. *bésicle*) 'eye glass,' originally 'beryl':—late L. **bericulus*, dim. of *berillus, beryllus*: it is not easy to trace any phonetic connexion between this and *barnacles*, even though the mod. F. dialect of Berry has *berniques* 'spectacles.']

1. A kind of powerful bit or twitch for the mouth of horse or ass, used to restrain a restive animal; later, *spec.* an instrument consisting of two branches joined by a hinge, placed on the nose of a horse, if he has to be coerced into quietness when being shoed or surgically operated upon.

Barnacle (bā·ɹnăk'l), *sb.*2 Forms: α. 3 bernekke, 4–5 bernake, 5 bernak, -ok, (? barnagge). β. 5 bernakill, barnakylle, 5– ber-

nacle, 6– barnacle, (7 bernicle, 9 bernicle). [ME. *bernekke, bernake*, identical with OF. *bernaque*, med.L. *bernaca, bernecha*. (Other F. forms *bernache, barnache*; Pg. *bernaca, -acha, -icha*, Sp. *bernache*; med.L. also *barnacas, bernecta, barneta*, perhaps bad spellings). With the β. forms cf. med. or mod.L. *bernicla, -ecla, -acula*, and mod.F. *bernicle, barnacle*. Ulterior history unknown.

The earliest attainable forms (omitting *barbates* in Albertus Magnus and *berllates* in Vincentius Bellovacensis, which seem too far off) are the Eng. *bernekke*, Anglo-Lat. *bernaca* (Giraldus Cambr. *c* 1175), *barneta*, ?*barneca* (Gervase of Tilbury *c* 1211), *bernacha* (Vincent. Bellovac. 1200–1256). If English, this could only be *barn-nacle* or *bear-nacle*, of which the application is not evident. The history of this word is involved in an extraordinary growth of popular mythology, traced back as far as the 11th or 12th c. by Prof. Max Müller, *Lect. Sc. Lang.* (ed. 7) II. 583 604. It is there suggested that *bernacula* might be a variant of **pernacula*, a possible dim. of *perna* 'a kind of shell-fish,' afterwards confused with **bernicula*, a supposed aphetic form of **hibernicula*, which might be applied to the barnacle-goose from its being found in *Hibernia*. Others seek the source of the primitive *bernica* in Celtic, comparing Gaelic *bairneach*, Welsh *brenig*, limpets. But as all the evidence shows that the name was originally applied to the *bird* which had the marvellous origin, not to the *shell* which, according to some, produced it, conjectures assuming the contrary seem to be beside the mark. The form *bernacle*, it will be seen, is not found before 15th c., and *bernacula* seems to be only its modern Lat. adaptation. If med.L. *bernacla, bernicla*, are earlier, they are suspiciously like erroneous forms of *bernacha, bernicha*. No connexion with BARNACLE *sb.*[1] can be traced: *bernac* was masc., *bernaque, -acke* fem., in Fr.)

1. A species of wild goose (*Anas leucopsis*) nearly allied to the Brent Goose, found in the arctic seas (where alone it breeds), and visiting the British coasts in winter.

This bird, of which the breeding-place was long unknown, was formerly believed to be produced out of the fruit of a tree growing by the sea-shore, or itself to grow upon the tree attached by its bill (whence also called *Tree Goose*), or to be produced out of a shell which grew upon this tree, or was engendered as a kind of 'mushroom' or spume from the corruption or rotting of timber in the water.

2. English name of the pedunculate genus of Cirripedes, which attach themselves to objects floating in the water, especially to the bottoms of ships, by a long fleshy foot-stalk. Sometimes used to include sessile Cirripedes: see ACORN-SHELL.

(This was the 'shell-fish' out of which the Barnacle Goose was supposed to be produced, the long feathery cirri protruded from the valves suggesting the notion of plumage. Giraldus Cambrensis had himself seen more than a thousand of them 'conchylibus testis inclusas,' hanging from one piece of timber on the shore.)

(The common barometer is a straight glass tube, 34 inches long and closed at the top, filled with mercury, and inverted in an open cup of the same liquid. The *siphon barometer* is a curved tube, with the mercury in the shorter limb exposed to the air; it is adapted as the *wheel barometer* found in ordinary weather-glasses by putting on the mercury in the shorter limb a float with a cord attached, which passes over a pulley, and as the float rises or falls, moves the indicating hand. For very exact readings a lofty tube filled with glycerine is sometimes used. See also ANEROID.)

Baron (bæ·rən). Forms: 2–4 barun, 4 barune, baroune, 4–6 baroun, -own, 5 baroone, barrown, 6 barroun, barne, 7 barron, 3- baron. [Early ME. *barun*, *-oun*, a. OF. *barun*, *-on*, acc. of *ber* (= Pr. *bar*, acc. *barón*, *baró*, Sp. *varon*, Pg. *varão*, It. *barone*):—late L. *baro*, *-ōnem*, of which the ordinary sense was 'man' (interchanging in Salic Law with *homo*), esp. in relation to some one else, as when we say 'the king's man,' passing on one side into 'servant, vassal,' on another into 'man as opposed to *slave*, freeman,' also as opposed to *wife* 'husband,' as opposed to *female* 'male.' Isidore explains *Mercenarii*, as 'qui serviunt accepta mercede, iidem et *barones* Graeco nomine, quod sint fortes in laboribus,' (connecting it with βαρύς); Cornutus (on Persius *Sat.* v.) explains *barones* (to which he attributes a Gaulish origin) as 'servos militum, qui utique stultissimi sunt, servos videlicet stultorum.' This seems to point to the cl. L. *bāro*, *-ōnem* 'simpleton, blockhead, dunce'; but there is nothing else to show whether this is the same word as *baro* 'man.' The laws of the Alemanns have in the same sense *barus*: if this were the original form, *baro* would be an augmentative.

The ulterior origin is unknown. It has been conjecturally referred to a Celtic **bar* 'hero' (which seems a figment); OHG. *bero*:—OTeut. **beron-* 'bearer, carrier'; a hypothetical Teut. **bar-*, with same sense; OE. *beorn*, 'warrior, brave, hero'; and Teut. *barn* 'bairn, child'; of which some are purely hypothetical, and others fail to explain the form or sense, or both.]

1. *Hist.* Originally, one who held, by military or other honourable service, from the king or other superior; afterwards restricted to the former or *king's barons*, and at length mostly applied to the greater of these (the *Great Barons*) who personally attended the Great Council, or, from the time of Henry III, were summoned by writ to Parliament; *hence*, a lord of Parliament, a noble, a peer.

Historically, all who held directly from the king were *barons by tenure*, such of these as were summoned to Parliament were *barons by writ*.

2. A specific order or rank, being the lowest grade of nobility.

From the earliest period we find *baron* distinguished from *earl*, as the designation of an *untitled* military tenant; the name may be considered to have itself become a title, as distinct from a description of feudal relationship or of parliamentary privilege, with the creation of barons by patent, which began in the reign of Richard II.

Basket (bɑ·sket), *sb.* Forms: 3– **basket**; also 4 5 **baskett(e**, 5 **-att**, **-yt**, 6 **basskett(e**, **basquette**, 7 **basquet.** [Origin not ascertained: not in Teutonic or Romanic; found in Eng. since 13th c.

Basket has been conjecturally identified with L. *bascauda*, used by Juvenal and Martial; by the latter (xiv. 99) given as British, 'Barbara de pictis veni bascauda Britannis, Sed me jam mavult dicere Roma suam.' But the senses anciently assigned to *bascauda* of *washing tub* or *tray* 'vasa ubi calices lavabantur, cacabus,' or *brazen vessel* 'concha: aurea, genera vasorum' Papias (see Du Cange), do not favour this identification. The word is unknown in Old Irish or Welsh (*bazgaud* is a figment invented to suggest *bascauda*), and the mod. Celtic words, Welsh *basgod*, Corn. *basced*, Ir. *basceid*, Gael. *bascaid*, cannot phonetically be descended from an original *bascauda*, but seem to be simply adopted from Eng. (Prof. Rhys). At present, therefore, there is no evidence to connect *basket* with *bascauda*, or to refer it to a Celtic origin.]

1. An animal, a member of the Mammalian order *Cheiroptera,* and especially of the family *Vespertilionidæ*; consisting of mouse-like quadrupeds (whence the names *Rere-mouse, Flitter-mouse*), having the fingers extended to support a thin membrane which stretches from the side of the neck by the toes of both pairs of feet to the tail, and forms a kind of wing, with which they fly with a peculiar quivering motion; hence they were formerly classed as birds. They are all nocturnal, retiring by day to dark recesses, to which habits there are many references in literature.

Of about 17 species found in Britain the best-known are the Common Bat or Pipistrelle (*Vespertilio Pipistrellus*) and the Long-eared Bat (*Plecotus auritus*); of the much larger foreign species, the most noted are the Vampires.

'fustis,' alleged by Somner, from an unknown source. The forms in Layamon rather favour the latter; but in any case some of the senses are from F. *batte.* The supposed OE. **bat* is by some referred to a Celtic origin: cf. Ir. and Gael. *bat, bata* staff, cudgel. The development and relations of the senses are obscure: some of them appear to be from the verb, and some may be immediately due to onomatopœia, from the sound of a solid, slightly dull, blow: cf. *pat.* Thus there may be two or three originally distinct words, though no longer satisfactorily separable.]

Battel, obs. form of BATTLE.

Battel (bæt'l), *sb.* As a separate word only in pl. battels; also 4 ? batails, 8 battles, 9 battells. [Of uncertain origin: in 16th c. I. *batilli, battilli*; in the Laudian Statutes *batella*. The etymology of this, with its associated vb., and deriv. *batteler*, has been the subject of abundant conjecture. Much depends on the original sense at Oxford: if this was 'food, provisions,' it is natural to connect it with BATTLE *v.*[3] to feed, receive nourishment; cf. esp. BATTLING *vbl. sb.*[3], explained by Sherwood (1632) as '*vivres, manger, morche*.' But conclusive evidence that *battels* had this sense is wanting, while already before 1600 it had that of 'debits,' *sums due* to the college for provisions, etc. The verb however appears to have been sometimes used for 'to take or receive provisions,' i.e. from the college buttery, which brings us close to the senses of BATTLE *v.*[3] 'to feed, take nourishment.' Cf. also the Eton use, and Winchester *battlings*. On the other hand, sense 3 of the vb. (if the same word) suggests the idea of contributing to a common fund or stock: compare the terms 'commons' and 'commoner.' See BATTELER.

Taking 'accounts' or 'score' as the original sense, some have conjectured *battel* to be a dimin. of BAT *sb.*[2] or of F. *batte*, with sense of 'little staff or stick,' whence perhaps 'tally-stick.' But nothing appears in med.L., OF., or Eng. to support this conjecture. Reference to Du. *betaalen*, G. *bezahlen* 'to pay,' or to the possibility of *batilli* arising out of a misreading of *baculli* 'little sticks,' do not fall within the limits of scientific etymology.]

† **1.** See quot. (Perhaps a distinct word.) *Obs.*

c 1400 *Apol. Loll.* 76 To cry þis day .. a3ennis þe multitude of lawis of þe kirk .. a3en batails, a3en reseruacouns, a3an first frutis, & o3er spolingis of goodis of þe kirk.

2. In Univ. of Oxford: **a.** College accounts for board and provisions supplied from the kitchen and buttery. **b.** In looser use: The whole college accounts for board and lodgings, rates, tuition, and contribution to various funds, as 'My last term's battels came to £40.' Also *attrib.*, as *battel-bills*.

The word has apparently undergone progressive extensions of application, owing partly to changes in the internal economy of the colleges. Some Oxford men of a previous generation state that it was understood by them to apply to the buttery accounts alone, or even to the provisions ordered from the buttery, as distinct from the 'commons' supplied from the kitchen: but this latter use is disavowed by others. See the quotations, and cf. those under BATTEL *v.* and BATTELER, which bear that *battels* applied in 17-18th c. to provisions supplied to members of the college individually at their own order and cost, i.e. to *batteлers*, who had no commons, but were charged their 'battels' only, and to *commoners* as extras 'above the ordinary stint of their appointed commons': but whether the *battels* were originally the provisions themselves, or the sums due on account of them, must at present be left undecided.

Battle, variant of Battel *sb.*

Battle, battel (bæt'l), *a. Obs.* exc. *dial.* Forms: 6–7 **battill, battell, batle, battle,** 6 **batel**(l, 7 **battel,** 8–9 *Sc.* **baittle, bettle.** [For the etymology and mutual relations of this and the cognate Battle *v.*[3], data are wanting; according to present evidence, the adj. appears earliest, being found in Scotch in 1513. Its form and sense agree with a derivation from **bat*, representing ON. *bati* 'improvement, getting better,' Du. *baat* 'improvement, advantage, profiting, profit,' referred to under Batten *v.*[1]; with suffix as in *brittle, bruckle, fickle, newfangle*, and OE. *etol, drincol, wittol.* This would give as the primary sense 'given, tending, or fitted, to improve, better, fatten, etc.' All the related words have a smack of Northern origin: '*battle* or *baittle grass*' is still common in south of Scotland.

The non-occurrence of *bat*, while its presumed derivatives, *battle, battable, batful, batsome*, are so frequent in 16–17th c., is a difficulty; as is also the fact that *batt-le, batt-able* point to a verbal rather than a substantive base, and yet can hardly have been formed on *batt-en.*]

1. Of grass or pasture: Improving or nutritious to sheep and cattle; feeding, nourishing, fattening.
